JATIN VERMA

Software Developer

PROFILE

Hello! I am Jatin and I am a software engineer working on web applications and web infrastructure. I have been developing professionally for 6 months but tinkering since a kid. I started in freelance services during college.

I can help everywhere in the stack and I love wearing multiple hats to an extent. Although, I do think my most strongest skills are in software engineering.

CONTACT

PHONE: 8882081627
